Easy Dispenser

Model D40

Model D20

Model D30

The new “easy” dispensers will assure you the maximum flexibility and the best efficiency/price ratio making it easy for you to apply labels in your semi-automatic manual labeling operations. Two buttons will allow you to choose between a manual detachment of the label, that means to push the button when you want the label to be detached, or an automatic detachment, that means to take the labels automatically in succession.

Through a knob you can set the label’s length to detach, from 0.19” up to 3.14”.

The dispensers have the following mechanical and electrical features:

Model D40

- Max. Label Width 5.90”
- Max. Roll Diameter 11.81”
- Core Holder from 1.25” and up
- Top to write on the label before detachment
- Power Supply 115/18 Vac
- Protection Fuse

Model D30

- Max. Label Width 5.90”
- Max. Roll Diameter 7.87”
- Core Holder from 0.78” and up
- Top to write on the label before detachment
- Power Supply 115/18 Vac
- Protection Fuse

Model D20

- Max. Label Width 2.75”
- Max. Roll Diameter 7.87”
- Core Holder from 0.78” and up
- Top to write on the label before detachment
- Power Supply 115/18 Vac
- Protection Fuse
